Dear Resident/Property Owner:

Re: Morrison Road Watermain Replacement

As part of the City of Kitchener's watermain replacement program, staff has scheduled road and water improvements in your neighbourhood on the street(s) listed above.

These improvements are scheduled to begin, on or about, June 14, 2021, with an estimated completion date on or about July 23, 2021. You will be notified closer to the date construction is scheduled to start, and also how long access to your driveway will be affected.

The specific improvements scheduled for this street are:

- Upgrade the existing water mains.
- Replace existing water services from the new mains to the property line.

These improvements are being done to upgrade the existing, deteriorated underground services, in order to prevent future system failure. The project will be funded through utility user fees and will not result in a direct charge to the homeowner.

In order to carry out these improvements, it will be necessary to close this street to through traffic. Prior to any road closure, signs will be posted on the approaching streets advising motorists of the date and the duration of the closure.

Pedestrian access will be maintained to all properties at all times and vehicular access to all properties within the construction area will be maintained for as long as possible. When parking in your driveway is unavailable for short-term or long-term durations, on-street parking options on adjacent streets will be provided to affected properties by way of future notification before vehicular access is cut off.

Materials outlining project details have been posted for viewing of all members of the public including owners and residents that will be directly affected by the proposed improvements. Please visit <https://www.kitchener.ca/en/development-and-construction/infrastructure-projects.aspx> and look under the "Morrison Road Watermain Construction Project" section for more information.

Before construction starts, a survey of the existing homes and businesses will be undertaken to determine the condition of the buildings in the construction area. The selected consulting firm will contact you directly to arrange for a voluntary inspection of the exterior and interior of your building. This inspection is done to protect the property owner.

If you have any questions and/or concerns about this project, please feel free to contact the project manager, Brent Garcia, by phone at 519-741-2200 ext. 7140 or by email at brent.garcia@kitchener.ca

Sincerely,

A handwritten signature in blue ink, appearing to read "Brent Garcia", written in a cursive style.
