SITE PLAN APPLICATION PROCEDURE

The City of Kitchener has a two-phase Site Plan application process:

1. **Phase 1 – Approval in Principle.** This completed application form and required application material is circulated to staff for review and confirmation that the site plan layout is acceptable. The Site Plan Review Committee will provide comments to the applicant regarding any required changes to the site plan that are required to issue the Approval in Principle. Once the layout is finalized, an Approval in Principle letter will be sent to the applicant that confirms the required conditions to be satisfied in order to obtain full Site Plan Approval and the conditions to be registered on title in a Section 41 Development Agreement.
2. **Phase 2 – Full Site Plan Approval.** The applicant will work with staff and agencies as appropriate to clear all of the required conditions of approval. Examples of typical conditions of approval are such items as landscape plans, lighting plans, engineering reports and drawings, cost estimate for site works and a letter of credit. Once all of the conditions are satisfied, Site Plan Approval will be granted and associated building permits may be issued.

An application generally requires about 4 to 8 weeks to achieve Site Plan Approval in Principle, depending on the complexity of the project. This process generally encompasses the following steps:

1. The application is received and reviewed by Planning staff to ensure all required information is provided on the application form, that the application is accompanied by a signed Record of Pre-Submission Consultation (or waiver), that the appropriate fee is submitted, and that drawings are submitted in accordance with the City's requirements.
2. A meeting with the City's Site Plan Review Committee is scheduled to discuss the proposal. Site Plan Review Committee meetings are held Wednesdays at 9:30am and 11:00am. Meetings shall be scheduled approximately 18 business days after the application is deemed complete to allow for circulation to City departments and external agencies. Site Plan applications subject to the Public Participation Policy will be scheduled for Site Plan Review Committee a minimum of 29 business days after the application is deemed complete. The Public Participation Policy applies to new commercial development within Planned Commercial Campus, Mixed Use Node, and other commercial areas where deemed appropriate. The policy requires that the application be circulated to all immediately adjacent low rise residential land owners, and where applicable, Neighbourhood Associations for information and comment. A published schedule of meeting dates is available at <https://app2.kitchener.ca/siteplan/?sp=review>
3. At the SPRC meeting staff and agencies will comment on the proposal and will outline the required conditions of Site Plan Approval and conditions to be included in a Section 41 Development Agreement. Standard Site Plan Approval conditions, delegated under Section 41 of the *Planning Act, R.S.O 1990*, can be viewed at: <https://www.kitchener.ca/en/development-and-construction/site-plans.aspx>
4. Following the SPRC meeting the owner/applicant is required to forward an updated Site Plan to the Planning Division which shall include any changes necessary to address comments or concerns arising from the SPRC meeting. The revised plan must be in the City's standard template Site Plan format.
5. Following receipt of the finalized Site Plan from the applicant, a formal Site Plan Approval in Principle letter will be forwarded to the applicant. This letter includes the required conditions of Site Plan Approval and the conditions to be registered on title in a Section 41 Development Agreement.
6. The applicant will proceed to work with appropriate staff to clear all of the required conditions of approval in order to obtain Full Site Plan Approval.
