

**SITE DEVELOPMENT WORKS CERTIFICATION FORM
FOR LIGHTING ENGINEER/CONSULTANT**

For item 8 on the Itemized Cost Estimate Form

Date: _____

Project Name: _____ Site Address: _____

Owners Name: _____

I, _____ of _____

certify to the City of Kitchener that all outdoor lighting fixtures for this development have been installed and maintained in accordance with the City approved plans and any subsequent City approved amendments to such plans and reports:

I further certify that:

- a) no additional outdoor lights have been installed.
- b) the illumination levels and uniformity ratios on site have been satisfied within generally accepted tolerances of the above noted plan.
- c) the lighting distribution pattern has not caused any veiling luminance (disability glare).
- d) no significant encroachment of light (0.5 Foot-candles or greater) or objectionable glare upon any adjacent property and that no light sources are visible from any adjacent residential site.

Please note all deviations from the design drawings below (all deviations to city approved plans are to be listed, i.e. change in mounting height, light source type, model number, aiming direction, distribution patterns, location of poles). Additional details may be required prior to the City accepting the certification.
