PRIVATE STREET NAMING AND ADDRESSING

Naming of roadways within, for example, private residential or commercial developments may be in the interest of providing clear locational information to emergency service providers and the general public. Private roadway naming requests may be permitted and will be evaluated on a case by case basis at the discretion of the City's Deputy CAO Community Services.

Design Criteria for the Naming of Private Streets:

The policies which apply to the naming and addressing of City streets will be used as a guideline for naming and addressing of private roadways – see Council Policy I-1147 Street Naming, Addressing, Multiple Unit Identification Signs, Address / Street Name Change.

A reference plan illustrating the extents of the proposed private roads and a by-law authorizing the road naming will be required. The design and location of all signage for any proposed private roadway will be to the satisfaction of the City's Director of Transportation and the Manager of Site Development and Customer Services in Community Services Department at the sole expense of the developer.
